A Broken Down System.

There is a disease to which the doctors give many names, but which few of them understand. It is simply weakness—a breaking down of the vital forces. Whatever its causes (and they are innumerable), its symptoms are in the main the same. Among the most prominent are extreme lassitude, loss of appetite, loss of flesh, and great mental depression. Indigestion and a *Stomach Cough* are also frequently concomitants of this distressing state of body and mind. The common remark in relation to persons in such a condition is, that they are consumptive. Now, what these unfortunates really want, is *vigor—vital strength*, and as certainly as dawn succeeds darkness they can recuperate their systems and regain perfect health by resorting to Hostetter's Celebrated Stomach Bitters. It is as clear that a life-reviving Tonic is required in such cases, as that the dying flame of an empty lamp requires to be revived with a new supply of oil. Perfectly pure and innoxious, containing nothing but the most genial vegetable extracts, and combining the three grand elements of a stomachic, an alterative, and a genial invigorant. Hostetter's Bitters are suitable to all constitutions, and are as applicable to the diseases and disabilities of the feebler sex as to those of men.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Fourth street.

River at Nashville—Brutal Murder—Fire—Wedding.

NASHVILLE, March 6.—The river is eight feet on the shoals, and has been rising steadily and slowly all day.

A negro named Nelson Wright was arrested on a charge of murder, and committed to jail to await his trial. The evidence goes to show that on Thursday night he decoyed a negro girl named Anna Fowles, who was a servant in the employ of General Donaldson, to the race ground, and there brutally murdered her. The body was found in a pond near the track with the scull terribly fractured. The accused was remanded to jail under a charge of murder in the first degree.

A fire occurred at five o'clock this morning, in Church street, near the Chattanooga depot, destroying the building occupied by Lieut. Wilson, Quartermaster, and by the Quartermaster of the military railroad. Lieut. Wilson's books and papers were a total loss. The damages otherwise are slight—probably five hundred dollars.

Major General Cheatham, late of the Confederate Army, will, on Thursday next, wed Miss Robertson, a wealthy lady of Davidson county.

The Texas Convention

NEW ORLEANS, March 6.—The Texas Convention Committee on the condition of the State, reported adversely on the ordinance for the protection and encouragement of its manufactures. It was a proper subject for legislative action.

The Finance Committee reported a sweeping ordinance declaring null and void all debts contracted by the State in the late war, and forbidding the legislature to assume or make provision for their payment. The same provision concerning confederate debts is under consideration.

From Fort Mason, New Mexico.

SAN FRANCISCO, March 7.—The *Flag* has advices from Fort Mason, New Mexico, stating that the Imperial Commander at Magdalen, Honara, with a band of Indians, seized a freight train belonging to American citizens, and prohibited further transportation by the American citizens. Colonel Lewis, commanding Fort Lewis, has been served with a demand by the Imperial commanders for property taken in action by the Liberals and sold to American merchants. The demand has been sent to headquarters. These orders embolden the Imperialists to invade the American soil, to plunder and murder inoffensive persons. Generals M'Dowell and Mason refuse to allow Colonel Lewis and his men to retaliate.

THE SOUTHERN INTERNAL REVENUE

Central Pacific Railroad Bonds.

INCREASE OF THE REGULAR ARMY BILL.

FREEDMEN'S CONTRIBUTIONS FROM ENGLAND.

Action Against the President's Private Secretary.

NEW YORK, March 7.—The *Times'* Washington special says: There has recently been a convention of the Internal Revenue officers of the Southern States, at Atlanta, Georgia, which appointed a committee, consisting of Assessor Bowies, of Augusta, Ga., and Collector Moses, of Sumter, S. C., to proceed to Washington, for the purpose of urging upon Congress the modification of the test oath so far as it affects Assistant Assessors and Deputy Collectors. Under the advice of this, the Secretary of the Treasury in consequence of the impossibility of obtaining men who could take the test oath entire, has appointed assistants in many cases, who could only partially qualify, with the knowledge that their pay would depend upon the action of Congress in modifying the oath. To urge Congress to do this is the first object of the Committee, and failing in this, they will urge that the salaries of those assistants be made large enough to induce northern men to go south and accept the offices.

In pursuance of the report of the Commissioners and Chief Engineer of the Central Pacific Railroad, of California, the Solicitor of the Treasury has submitted the opinion that the company is entitled to bonds to the amount of six hundred and forty thousand dollars, the sum allowed per mile being thirty-two thousand dollars.

The Second Controller of the Treasury has instructed the Second Auditor to require all claimants for arrears of pay or bounty for deceased soldiers of foreign birth, and who represent themselves as only brothers, sisters and widows of the deceased, duly authenticated evidence from genealogical tables of their native place before their claims be allowed.

The *World's* Washington special says the House Committee on Military Affairs have completed the bill for the increase of the regular army. It differs very materially from the Senate bill, and ignores entirely the recommendations of Generals Sherman, Thomas and Meade. It provides that the army shall be made up largely of the volunteers. The Veteran Reserve Corps is fully provided for, as in the organization. It also provides for the retention of several negro regiments, to be officered by white men. The boards for the examination of officers are to consist of a majority of volunteer officers. The proposition to revive the grade of General will not be included in the army bill. The probabilities are, that the Committee will decline for the present to take any action in this matter.

Secretary McCulloch was assured yesterday by several members of the Ways and Means Committee, that as soon as the reciprocity matter was disposed of, the loan bill would be called up and finally disposed of. They also notified him that Mr. Stevens' substitute would not prevail.

The *Tribune's* Washington special says that another contribution from the Birmingham (England) Association was yesterday received by Gen. Howard. The invoice consisted of clothing, and amounted in value to over $1,600. The money value of the articles heretofore contributed by the same Association is over $10,000, all of which has been donated since the termination of the rebellion.

Well authenticated reports have recently reached Gen. C. H. Howard, Assistant Commissioner of the Freedmen's Bureau for the District of Columbia, Maryland, and several of the eastern counties of Virginia, to the effect that certain unprincipled and unauthorized persons are engaged in transferring freedmen from Baltimore, and vicinity, to Annapolis, where they are by some process unknown, disposed of to their employers at ten dollars per head. Strong efforts are being made by the Bureau to ferret them out and bring them to justice.

ANOTHER BOND ABSTRACTION CASE.

JOHNSON MEETING AT HUDSON CITY.

CONTINUED FENIAN EXCITEMENT.

BOLD ATTEMPT AT ROBBERY

Excitement Among Lager Beer Brewers.

NEW YORK, March 7.—Another financial sensation case leaked out yesterday, involving a serious charge against one Louis Calin, formerly the foreign clerk of Duncan, Sherman & Co., who is accused of abstracting forty thousand dollars worth of United States bonds and railroad securities deposited with the firm by parties travelling abroad, who desired to obtain letters of credit. With these, it is charged, Colin carried on ruinous stock speculations, and finally confessed his offence to his employers. The case was argued before Judge Cardozo yesterday, on a motion to discharge the prisoner from the county jail under the insolvent act.

A Johnson meeting was held last evening at Hudson City. Resolutions, pledging the meeting to support the President in his veto and reconstruction policy, were unanimously adopted the same being ordered to be engrossed and forwarded to the Representative of the District in Congress for presentation to the President.

The Fenian excitement still continues. Public meetings were held last night in various parts of the city and at Brooklyn. One thousand dollars worth of bonds were subscribed for, and fifty muskets were presented by friends of the cause. This evening there is to be a grand mass meeting of Fenians in Brooklyn, in front of the City Hall, for which unusual preparations have been made.

A bold robbery was committed yesterday afternoon in Broadway, in the Bank at the corner of Park Place and Broadway. Mr. James Rowe went to the bank to deposit $3,727.22, in two packages, and while counting the money near the Teller's desk, he noticed a man standing near by, and soon after felt an arm under his own, at the same moment one of the packages, containing $2,283, was taken up. The rogue dodged into the hall, but was seized by Mr. Rowe, when he dropped the money and started off again, but was subsequently arrested by persons passing the bank door. The thief turns out to be George Gardner, *alias* Dutch Heinrick, who committed the celebrated gold robbery about a year ago, and who was charged with a similar robbery in Philadelphia, but who escaped punishment in both cases. He was committed for trial.

Considerable excitement is occasioned among the lager beer brewers of this city and Brooklyn, in consequence of rumors that the returns of sales upon which the taxes are collected, have been suspected by the assessors of inaccuracy. It is now undoubted from recent discoveries that extensive frauds have been committed upon the government, and the authorities are instituting a most searching and rigid inquiry.

The *Tribune's* Washington special says that the District Attorney for this District has been ordered by the Treasury Department to commence an action against Brig. Gen. R. D. Mussey, late Private Secretary to President Johnson, to recover $28,000 which, it is alleged, was abstracted from the sum advanced him for recruiting, and for which it is claimed he has failed to account for.

Provision Against Cholera—Funeral of Colonel Bowers.

NEW YORK, March 7.—The *Post* says that intelligence has been received by one of the New Orleans steamship companies in this city that a military order has been issued ordering all vessels arriving from the West India Islands to be subject to twenty-five days quarantine, as a provision against the introduction of cholera.

A Washington special states that General Grant and five members of his staff left that city this morning to attend the funeral of Colonel Bowers at West Point. Washburne and other members of Congress from Illinois leave the city to-night to take part in the ceremonies.

A gentleman who was on board the train on the Hudson River Railroad at the time of the accident to Col. Bowers, gives the following particulars of his death. The Colonel had left the car to obtain his satchel, and when he returned the train was moving, he grasped the railing of the last car but one, holding his satchel in one hand, losing his foothold he fell between the cars and was killed instantly. His clothing was torn off and his head nearly severed from his body. He was heard to scream as he fell, but it was impossible to stop the train. His remains were sent back to West Point in charge of an officer detailed by Gen. Grant. The General, who continued his journey to this city, was greatly affected by the melancholy event, declaring nothing had ever moved him so deeply. He spoke in the warmest terms of Col. Bowers.

Speaker of the North Carolina Senate.

RALEIGH, N.C. March, 7.—Mr. Winstead, of Pearson county, was elected Speaker of the Senate last night, vice Mr. Settle, resigned.

LATER FROM EUROPE.

The Suspension of the Habeas Corpus in Ireland.

ADDITIONAL FENIAN ARRESTS.

ADDRESS OF THE FRENCH CORPS LEGISLATIF.

FRENCH TROOPS TO LEAVE MEXICO.

Foreign Markets, &c.

NEW YORK, March 7.—The steamer City of New York, from Liverpool on the 21st, and Queenstown on the 22nd, has arrived.

The suspension of the habeas corpus in Ireland was received with universal approbation in England, and very general satisfaction in Ireland. The first effect was uneasiness and depression, but the vigor shown by the government restored confidence, and had a favorable effect. The act authorizes arrests and detention in custody until the first of March, 1867, of persons suspected of conspiracy. The chief object of the measure is believed to be to enable the authorities to deal with numerous Fenian emissaries from America, who are represented as scattering in all directions. The police are acting vigorously, and are making a large number of arrests. The militia force in Ireland is being strengthened by reinforcements from England.

It is reported that Sir Hugh Rose, Commander in Ireland, demanded further instructions from the Government. Four Sergeants of a regiment at Limerick were placed under arrest. Among the latest arrests are General John H. Gleeson and his brother Joseph Gleeson, of the Federal Army. The police were fired on from a house in Tipperary, where it is supposed drilling was in progress. One officer was severely wounded and some of the men were arrested. P. J. M'Donnell, the supposed Head Centre at Dublin, was arrested. Order continued to be maintained. A bill passed the House of Lords authorizing the Irish government to take possession of the telegraph wires if necessary.

The government bill regarding the cattle plague has passed both Houses of Parliament.

The Queen will hold five receptions at Buckingham Place during the season, but regular drawing rooms and levees continue to be held by Prince and Princess Wales.

A message from the Queen was presented to both Houses of Parliament asking that provision be made for Princess Helena on her marriage, and Prince Alfred on his coming of age.

In the House of Commons Mr. Clay introduced a reform bill extending the franchise to all males over twenty-one, fairly educated.

Mr. Gladstone declined to shed any light on what the government proposal would be.

In the French corps legislatif a draft of an address in response to the speech from the throne, introduced, expresses satisfaction at the assurance that the expedition to Mexico is to close. The address then alludes to the traditional sympathies of France and the United States, and says the latter ought not to take umbrage at the presence of French troops in Mexico, to render their recall dependent upon any other but our own convenience would attack our rights and our honor, which your Majesty rewards with servitude worthy of France and the name of Napoleon.

The *Patrie* gives a report that Secretary Seward is about to send a conciliatory dispatch to France, intimating the readiness of the United States, to proclaim neutrality in Mexico, subject to certain conditions.

The Suez canal question is definitely settled. The Company retains no land whatever, except for a Maritime channel. This politically removes all possible questions of dispute.

It is stated that recruiting in Austria, to fill up Austrian corps in Mexico, will commence in a few days.

Very latest by telegraph to Queenstown.—LONDON, Feb. 22.—The Bank of England has reduced the rate to 9 per cent.

Fenian arrests continue active.

The Paris *Patrie* says: Certain proposals have emanated from Maximilian, which renders possible the return of five thousand troops from Mexico by the end of May.

Liverpool, Feb. 21.—American Cotton sales on Monday and Tuesday were 16,000 bales, including 6,000 for speculation and export. The market has been dull and irregular, with prices rather lower under the heavy receipts at Southern ports; Middling Uplands 18½. Trade at Manchester yesterday quiet, but prices generally steady. Breadstuffs—Richardson, Spence & Co. and Wakefield, Nash & Co. report a dull and generally lifeless market. Flour dull and difficult to sell; quotations nominally unchanged. Wheat in moderate demand at about late rates; Winter red and Southern 10s @10s 6d. Corn quiet and a shade easier; mixed 28s 3d@28s 9d per 4,800 lbs.

Bigland, Attega & Co., and Bruce & M'Cauliffe report beef in good demand at the late advance. New India Mess, 135s; Old, 95s. Pork scarce and firm at full rates. Bacon quiet and a shade lower. Butter very dull. Cheese firmer for choice. Lard closes firmer for American at 75s@75s 5d. Coffee quiet but steady. Sugar firmer. Petroleum—Sales of Refined at 2s 2d@2s 3d per gallon.

London—Wheat firm at full prices, and partially is per quarter dearer. Flour firm. Sugar in fair demand at firm rates.

LIVERPOOL, Feb. 22.—The cotton sales of Wednesday and Thursday were 96,000 bales, including 4,000 bales to speculators and exporters. The market is irregular, and ¼d lower under news from America.

Breadstuffs quiet and steady. Provisions steady except bacon, which is firmer, and lard which tends upwards.

LONDON, Feb. 22.—Consols for money 87⅛@87¼; United States Five-Twenties 69¾@69⅞; Erie shares, 530, 53¼; Illinois Central 76¾@77.

FROM SOUTH AMERICA.

Movements of U. S. Steamers.

WAR PREPARATIONS CONTINUED.

Desertion of the Correntine Militia.

NEW YORK, March 7.—The steamer Havana, from Rio on February 3d, with Para dates of the 12th, and St. Thomas of the 26th, has arrived.

The United States ships Susquehanna, Kansas, Shawmut, Nipsic and Wasp were at Rio De La Platte, and the Juniata at Rio Janeiro. The Brooklyn left the latter place on the 31st for St. Catharines and La Platte. The Rhode Island. Admiral Palmer, is at St. Thomas. Washington's birthday was celebrated by the Admiral. The salutes were responded to by the forts and English men-of-war.

The advices from Rio are unimportant. War preparations continued. The Brazilian Government was firm in demanding the expulsion of Lopez as the first basis of any peace negotiations. A society for the protection of emigrants was organized. Exchange on England 24½d. Coffee—finest quality—firm. Flour scarce and much wanted. Freights to New York, 42s 6d.

Montevido advices to January 24th says: No active movements have occurred. Both sides are engaged in making preparations for the campaign in Paraguay, which it is expected will commence in about a month. Two small skirmishes occurred with parties of Paraguayans, who crossed the Sardinia. In one they surprised an Argentine outpost, captured two field pieces, some horses and cattle. In the other they were rotued with a loss of two or three. The allied armies are still receiving reinforcemenas, and have forty-five thousand men at Paso de la Patria. An explosion of seven wagons of powder occurred in the depot of Corrientes, through the smoking of a sentry, killing and wounding twenty men.

Lopez has ditched the road to Huwaita and burned various points. He has put all capable of bearing arms in the Brazilian fleet at Corrientes, awaiting high water which is approaching. The iron clad Brazil, with four gunboats, was ascending the Porana to join it, raising it to fifteen gunboats and two iron clads.

A desertion of the Corrientine militia from the Argentine army is reported. After a conflict with some Brazilians, eighteen of the latter were killed and six of the former. All is quiet in the Confederation of Montevido.

The Momvodok arrived safely at Montevido.

The English Government has determined on fortifying the Walkland Islands, and has sent a party of marines there.

The Bill to Prevent the Spread of Foreign Cattle Diseases in the United States.

WASHINGTON, March 7.—The bill to amend an act to prevent the spread of foreign diseases among the cattle of the United States, approved December last, as it passed both Houses, having been signed by the President, is now a law. It provides that the importation of neat cattle, and the hides of neat cattle, from any foreign country into the United States is hereby prohibited, provided that the provisions of this act shall be suspended as to any foreign country or countries, or any parts of such country or countries, whenever the Secretary of the Treasury shall officially determine, and give public notice thereof, that such importation will not tend to the introduction or spread of contagious or infectious diseases among the cattle of the United States.

The Secretary of the Treasury is hereby authorized and empowered, and it shall be his duty to make all necessary orders and regulations to carry this law into effect, or to suspend the same, as therein provided, and to send copies thereof to the proper officers in the United States, and to such officers or agents of the United States in foreign countries, as he shall judge necessary.

Section second—That the President of the United States, whenever in his judgement the importation of neat cattle, or hides of cattle, may be made without danger of the introduction or spread of contagious or infectious diseases among the cattle of the United States, may, by proclamation, declare the provisions of this act to be in operation, and the same shall be afterwards in operation, and of no effect from and after thirty days from the day of said proclamation.

Section three—That every person convicted of a wilful violation of this act, shall be punished by a fine not exceeding five hundred dollars, or imprisonment not exceeding one year or by both, such fine and imprisonment to be at the discretion of the Court.

FROM WASHINGTON.

Testimony Before the Committee on Reconstruction.

ORDER FROM GEN. GRANT.

Official News from Mexico.

&c., &c., &c.

WASHINGTON, March 7.—The testimony reported from the Reconstruction Committee refers to the States of Texas, Louisiana, and Florida, and is substantially the same as that given of other States.

Lieut. Miller testified that the poor working people of Texas were loyal; gamblers, and the wealthy class were hostile to the government. The facility for obtaining pardons and general leniency of administration had encouraged the latter.

Maj. Gen. Stanley testified that Texas had not been conquered, the people asserting that the State had not been surrendered by General Lee. The Germans are a loyal people, and go beyond the American in Union sentiments vastly. Witness said besides that the only Union men whom he knew in Texas, men of any influence, would be comprised in ten persons. He did not think there need be any fear of an outbreak or resistance to the Government, but would state that if we became involved in a foreign war, almost the entire American population of Texas would go over to the enemies, if they thought they had any chance of succeeding, and this was not only his opinion but he had heard some opinions expressed by other men of ability. The women of Texas were universally rebels, contemptuous and disposed to be insolent to American officers whenever they could. The feeling of the people has been better since the fall of the rebellion, with the exception of Western Texas, where they could elect candidates for office, favorable to rebellion. He considered Texas in a worse condition than any other State, for the reason that they were never whipped. He said that there was more solid money in Texas, than in any other State, but they kept it to themselves. The people, if left to themselves, would hold negroes in bondage. The people are generally in comfortable circumstances. The keeping of a military force in Texas is necessary for the next five years.

John W. Ricks, Collector of Customs in Florida, says the impression among the people was that they had been overcome, but not conquered. There has been no material change for the better in any portion of the States lately in rebellion. The people have a bitter aversion for what they call Yankees, or Northern men. He would not know where to lay his hand upon a man who really loved the Union. At the present time, he would just as soon expect to find a white raven upon the sand banks of Florida, as to find Union men who have always loved their country. There might be some, but he had never seen them. The presence of a military force in Florida is necessary to secure the rights of property; and the lives of the citizens, both white and black.

Brig. Gen. Doolittle, who served in the northeastern part of Louisiana, testifies that among the better class of citizens, while he did not think there was a very heartfelt loyalty perhaps, there was a disposition to conduct themselves in support of the Government. The greater number regretted the war, more, perhaps, from the fact that their property was destroyed, and so much suffering entailed upon them. A great many were sorry they had not succeeded, but were willing to accept the condition of things and make the best of it, and do every thing they could to support the Government.

John Covode testified to the condition of Louisiana. Soon after the surrender, the people thought themselves well whipped, and did not dream they would again be entrusted with political power. Governor Wells and others had carried back encouraging reports from Washington. The officials appointed by Gov. Wells were rebels of the worse class. A high official kept blood hounds with which Union men were hunted to death. Over one hundred rebel officers had been appointed; they combined to control elections, and loyal men had requested to be warned, as they feared they would be given over to the rebels. The freedmen were working well but were only paid $8 a month at the highest. The freed negroes would be badly treated if the military was withdrawn.

The Secretary of the Treasury has issued a circular to customs officers, and officers and agents of the United States in foreign countries, directing their attention to the amendatory act relating to the prohibition of foreign cattle and hides, a copy of which is appended to the circular, and says in accordance with its provisions, I have determined to suspend its operations in regard to the importation from foreign countries, other than those of Europe, as the cattle disease does not seem to be prevalent elsewhere. Customs officers will take care that no neat cattle nor hides of neat cattle, coming directly or indirectly from any parts of Europe, are landed on any pretext whatever, from and after the 1st day of May, 1866.

Custom officers will require that the consular certificates accompanying each invoice of neat cattle, and of the hides of neat cattle, excepting those from Canada and other British North American provinces, shall state that the cattle disease is not, and has not been recently, prevalent in the country from which the importation comes. He is satisfied that such is free from disease, and until the first of May, and in advance of such consular statement, or any invoice arriving after that rate, report each case to the department and awaits its instructions. It will be seen that under this regulation, the importation of cattle and hides from Canada and British North American Provinces is unrestricted, it being understood that the provincial authorities have adopted measures to prevent their introduction from Europe.

An order has been issued by order of Lieut. Gen. Grant, as follows:

"Brig. Gen. P. St. George Cook, United States Army, having been assigned to command the Department of the Platte, is relieved from duty as Superintendent of the general recruiting service, and will turn over the records thereof to Brvt. Brig. Gen. D. Butterfield, Col. of the Fifth Infantry, who is appointed Superintendent in his place."

An order has also been issued by order of the President, as follows:

"The present military department of Missouri will be divided into two parts, one called the Department of Missouri, to be commanded by Maj. Gen. Jno. Pope, with headquarters at Fort Leavenworth, Kansas, and the other to be called the Department of the Platte, to be commanded by Brig. Gen. P. St. George Cook, United States Army, with headquarters at Omaha, Nebraska. Maj. Gen. W. T. Sherman, commanding the Division of the Mississippi, will designate the limits of the new departments, and report the same to the Adjutant General of the Army."

Official news from El Paso, the seat of the national government of Mexico, has been received in this city up to the 10th of February. President Juarez had heard satisfactory news from the interior. The dissatisfaction of the people against French rule was growing every day. The movement of Gen. Ferragas's brigade render necessary the evacuation of the city of Chihuahua by the French.

Quartermaster General Meigs has issued a pamphlet on Andersonville, containing the names of those whose remains are interred in the cemetery near that place.

The bill introduced by Representative Stephens to-day to re-imburse the State of Pennsylvania for the payment of monies advanced by that State under promise of payment, appropriates $800,000.

The Illinois Delegation in Congress held a meeting this afternoon, and appointed Messrs. Cullum, Harding, and Thornton a Committee to attend the funeral of Colonel Bowers, to-morrow. They left this evening.

Lieut. Gen. Grant, Gen. Comstock, Colonels Hudson and Rodman, and Major Webster, of his staff, and Generals Vincent and Nicholas, of the Adjutant Generals Department, left for the same purpose this morning. The mourning flag was at half mast over the army headquarters to-day, and the building is draped in mourning, in respect to the memory of the deceased, whose merits as an officer and a gentleman are universally acknowledged to have been of the highest order.

The bill before the Senate, reported, with an amendment, from the Finance Committee to-day, provides, among other things, for the taxation of incomes from all United States property held by foreigners.

Verdict for a Colored Man—The Reciprocity Debate in the House—Election of Civil Officers in Alexandria—Commodore Winslow.

NEW YORK, March 7.—In the Superior Court to-day, the jury rendered a verdict of $750, to which the court added an allowance of 5 per cent., in favor of Kensie Brick, a colored man, who sued the city for damages to his property during the riots of 1863.

The *Commercial's* Washington special says: The House in the reciprocity debate, yesterday, strengthens the growing jealousy between the west and the New England men on the subject of protection. The western members are in favor of liberal trade arrangements with Canada, and complain that the national interests are subordinate to the views of eastern manufacturers. Attempts are being made to so combine the lumber, coal and the wood interests as to change the Continental Tariff bill, now under consideration, from revenue to protective, by largely increasing the duties.

At the election in Alexandria yesterday, the Mayor and several others elected were in the rebel army.

The *Evening Post* contains the following: Some time ago Commodore Winslow was ordered to relieve Rear Admiral Thatcher, now in command of the Gulf squadron, but owing to the fact that he was the principal witness in the Semmes trial, he was retained in Washington. As it is not likely now that Semmes will be tried at all, Commodore Winslow is at liberty, and will in a few days assume the duties of his new command. A number of volunteer naval officers who were kept in the service to give their evidence in this trial will now receive their honorable discharges.

The Chilian Privateer Case—Fenian Circles Forming Regiments.

NEW YORK, March 7.—The case of the Meteor, the alleged Chilian privateer, was called up to-day, and set for argument on the 20th inst., to accomodate the counsel for the claimants, Messrs. Choate & Evarts.

Mr. Collins, jeweller, who was attacked by burglars in his store, a few days since, in Brooklyn, has since died of his injuries. The affair is still wrapped in great mystery.

A large business is said to be doing at the Fenian Headquarters, in Irish bonds. A report from there, says the Brotherhood, during the past month, has become a vast military organization, the circles having been formed into regiments. They have been instructed, however, to commit no violation of the neutrality law.

XXXIXth CONGRESS---FIRST SESSION

WASHINGTON, March 7, 1866.

SENATE.

Mr. Wilson offered a resolution, which was adopted, instructing the Committee on the Judiciary, to inquire what legislation is necessary to protect officers of the army from arrest and prosecution by civil courts, for acts done in obedience to orders from superior officers, while in the United States service.

Mr. Sprague offered a resolution, which was adopted, instructing the Committee on Foreign affairs to report a bill for the appointment of a commission of two judicial officers, one from the army and one from civil life, to examine the subject of Cholera preventatives, and to attend the Cholera Congress in Europe.

Mr. Davis called up the resolution offered by him a few days ago, calling for a Committee to investigate Cotton Frauds. He now offered a substitute for his original proposition, providing for a standing Committee of the Senate, on the subject of abuse of power, of which a majority shall be composed of opposition Senators.

Mr. Trumbull caused to be read a letter from Gen. Brayman, in reply to accusations of official corruption, made against him in a letter from Wm. Burnett, of Cincinnati, alleging Mr. Burnett to have been guilty of frauds, at Natchez, and asking for a full investigation of the matter.

At one o'clock the constitutional amendment was taken up. Mr. Sumner took the floor in opposition to it, and spoke at great length against the proposition. To his mind it was most utterly reprehensible and unpardonable. The same sentiment which led us to hail the abolition of slavery with gratitude as the triumph of justice should make us reject with indignation advice to crystalize into organic law the disenfranchisement of a race. It was with infinite regret that he differed with valued friends about him, but he could not do otherwise. He should speak frankly, as on other occasions, in exposing crime, against the causes in the family of that enactment which turns the whole North into hunting grounds where man was game. This attempt was on a larger scale, and more essentially bad; such measures so obnoxious to every argument of reason, so perilous to the national peace, and so injurious to the good name of the Republic, must be encountered, as we encounter a public enemy.

Mr. Sumner spoke of the part the negroes had taken in the war, and said that the Republic was solemnly pledged to their benefactors, by ties of gratitude and by open promise in the face of the civilized world. Treason must be made odious to all who have been untrue to the Republic, and must, for a certain time, be excluded from the partnership of the Government; and all who have been true must be admitted into partnership according to the sovereign rule of the Constitution, which knows no distinction of color. In the one way, the construction is easy, in the other, impossible. He considered this, not as an amendment, but as a detriment to Constitution, and its avowed purpose uncertain loose, crooked and ricketty. Were it adopted you would declare millions of fellow citizens had no rights which white men are bound to respect, thus repeating in new form an abomination which has blackened the name of Taney; adopt it, and you will stimulate a new war of race upon race. The proposition was as absurd as it was gigantic, for it takes no account of the sense of mankind, which is the same as if in rearing a monument we took no account of the law of gravitation. It was a paragon and masterpiece of ingratitude; showing more than any other act of history what was so often charged,—that Republics are ungrateful. Adopt it, and you affix a stigma to the very name of Republic.

After quoting Otis, Franklin, and others on the subject of taxation and representation, Mr. Sumner stated his objections to the pending proposition, and summed them up as follows:

Mr. President—Such is the argument for the rejection of the beginning you have seen:

Firstly—How the proposition carries in the Constitution itself the idea of equality of rights.

Secondly—How it is an express sanction of the acknowledged tyranny of taxation without representation.

Thirdly—How it is a concession to State rights at a moment when we are recovering from a terrible war waged against us in the name of State rights.

Fourthly—How it is the Constitutional recognition of an oligarchy, aristocracy, caste and monopoly founded on color.

Fifthly—how it is the constitutional recognition—how it embodies the wretched pretension of a white man's Government.

Sixthly—How it assumes what is false in the Constitutional law that color can be a qualification for an elector.

Seventhly—How it positively ties the hands of Congress in fixing the meaning of a republican government, so that under the guarantee clause it will be constrained to recognize an oligarchy, aristocracy, caste and monopoly, together with the tyranny of taxation, without representation, as not inconsistent with such a government.

Eighthly—How it positively ties the hands of Congress, in completing and consummating the abolition of slavery, in pursuance to the second clause of the Constitutional amendment, so that it cannot, for this purpose, interfere with the denial of the elective franchise, on account of color.

Ninthly—How it, in States in recent rebellion, gives permanent power over loyal citizens, and

Tenthly—How it shows the South, in unmistakable characters, that it is a compromise of human rights, the most immoral, indecent, and utterly shameful of any in our history.

All this you have seen, with pain and sorrow, I trust. Who that is moved to pain and sorrow for his fellow-men, can listen to the story without indignation? Who that has not lost the power of reason, can fail to see the cruel wrong? And now the question arises: What shall be done to this? I answer, reject at once the pending proposition. Show it no favor. Give it no quarter. Let the country see you are ill-patient of its presence.

Mr. Doolittle addressed the Senate, at considerable length, in favor of representation, according to the number of voters.

Mr. Morrill rose to speak, but on motion of Mr. Johnson, further consideration of the subject was postponed until to-morrow at one o'clock.

Mr. Ramsey moved that the Senate take up the bill for the admission of Colorado.

Mr. Sumner hoped not.

After a debate, participated in by Messrs. Wilson, Ramsey, Trumbull and Sumner, the bill was taken up and read the second time, and made the special order for Monday next, at one o'clock.

After consideration of private bills, the Senate, at five o'clock, adjourned.

HOUSE.

Mr. Washburne, of Illinois, from the Reconstruction Committee, reported to the House the testimony taken by that Committee in relation to the States of Louisiana, Texas and Florida, which was ordered to be printed.

The morning hour having expired, Mr. Latham, from the Committee on Printing, reported a resolution, which was adopted, to print two hundred thousand copies of the address of the Speaker and of the eulogy of Senator Cresswell on the life and character of Henry Winter Davis, delivered in the House on the 22d of February.

On motion of Mr. Stephens, it was also ordered that the address and eulogy be printed in the *Globe*.

On motion of Mr. Latham the Senate amendment to a joint resolution giving the consent of Congress to transfer the counties of Berkley and Jefferson to the State of West Virginia, was taken from the Speaker's table and concurred in.

Mr. Bingham moved five thousand copies of the joint resolution to admit Tennessee, with the testimony and accompanying document reported from the Reconstruction Committee, be ordered to be printed. Referred to the Committee on Printing.

Mr. Schenck reported from the Committee on Military Affairs a bill to reorganize and establish the army of the United States, which was read twice, recommitted and ordered to be printed.

Mr. Latham asked and obtained leave to have printed a bill which he desired to offer as a substitute for the Senate bill to protect all persons in the United States in their civil rights.

Mr. Raymond stated that he had voted yesterday against the amendment offered by Mr. Schenck in reference to cadets at the military academy, but his vote was not recorded.

Mr. Perham, of Maine, from the Committee on Invalid Pensions, reported a bill supplementary to the several acts relating to pensions, which was read twice and recommitted.

The House then went into Committee of the Whole, Mr. Raymond in the chair, and resumed the consideration of the bill regulating trade with the British North American Provinces. Mr. Kelley addressed the Committee in opposition to the bill.

From Havana.

NEW YORK, March, 7.—The steamship Vera Cruz, from Havana on the 2d inst., has arrived, and brings the following news from Mexico and Vera Cruz:

General Roman Mendez reports officially that with seven hundred men he attacked and completely defeated General Regule's force of three thousand men, capturing seven hundred prisoners. The rest of the force was dispersed, leaving in the hands of Mendez their artillery, arms, and ammunition, &c. Regule's afterwards captured the town and garrison of Tareton.

News had been received at Havana from Venezuela to the 8th ult., that the railroad between Puerto Cabello and Palito, was to be opened on the 15th.

There had been several slight earthquakes there.

There was some trouble in the State of Bolivia, but it was not of much importance.

The *Tribune's* special correspondent writing from Santiago de Chili, January 30th, says: The telegraph lines is nearly completed along the coast. Chili is not sick yet; her credit is deservedly good; her mineral wealth is inexhaustible; paper money is not depreciated; at the National Bank of Chili they give you bills or specie, as you like. During the blockade all the silver produced from the mines is coined, and this will be sufficient for the general uses of the country. The National Bank has about $1,500,000 of their notes in circulation, and these are perfectly guaranteed. The banks have due them from the United States two millions.

The Government has effected a loan of $6,000,000, at 6 per cent., of Baring Brothers, London. This will come in specie.

It is currently reported—and I believe it may be true—that Peru has sold the Chincha Islands to an American company. It may be a facetious sale, but Spain will not have any guano unless she buys it. President Prado is a good man for the post he occupies, from all accounts. Peru can pay her debts. She is a richer country than Chili. Last year, the proceeds of guano reached $20,000,000, and they even exported cotton in 1865 to the amount of $3,000,000.

FROM THE SOUTHWEST.

GENERAL SCOTT AT NEW ORLEANS.

THE TEXAS CONVENTION.

NEW ORLEANS, *via Louisville*, March 7.—Gen. Scott is still here, and not at Pensacola, as reported.

It is rumored that Gen. Steadman succeeds Gen. Canby, and that Gen. Fullerton is to be the President's Secretary of State.

Recruiting for the Liberal army is going on here.

The President's veto of the Freedmen's Bureau bill, arrested the contemplated emigration of a large number of Texans to foreign countries. Freedmen's affairs in Texas are favorable.

Goods are selling at Houston at 25 per cent. below invoice prices. The report of an abrogation decree making Matamoras a free port is erroneous. The decree makes duties payable at Matamoras instead of the interior.

The Galveston Convention effort basing representation in the Legislature on the number of free persons failed. The Legislative Department expressed unqualified opposition to negro suffrage.

Provision has been made for the election of State officers, as soon as practicable.

The Finance Committee reported a sweeping ordinance, declaring all debts contracted by the State, during the late war, null, and forbidding the Legislature to assume payment thereof.

Dr. Gener made an able minority report, favoring unlimited suffrage.

The Convention passed an ordinance, making five years suffrage necessary to qualifications for the Legislature.

The steamer Sedgewick has arrived from New York.

New Orleans cotton—Middling, 81c. Freights to Northern ports, ¾c; to Laverpool, ⅝@⅞c, and very dull. Several vessels were sent away in ballast.

The steamer Wellington has arrived from New York.

Geooge A. Starr, of this city, has been convicted of the charge of killing Wm. C. Lewis, of Versailles. The Court recommend him to the clemency of the commanding General of the District.

Gen. Palmer has commuted the death sentence of the guerrillas Jas. Harvey Wells, *alias* Wm. Henry, and Samuel O. Berry, to ten years imprisonment in the Penitentiary at Albany, New York, subject to the approval of the President.

Fenian Meeting at New Haven, Connecticut.

NEW HAVEN, March 7.—A grand Fenian meeting was held here this evening. The largest hall obtainable in the city was packed to overflowing. Gen. Mullen expressed himself satisfied that the United States would follow the neutrality example set by England, and would block the progress of the Fenians.

A letter had been received at the Headquarters in New York, from Head Centre Stephens, announcing that he was ready to move the armies of Ireland when the signal should be given. He had 325,000 men ready for the conflict, and had a signal corps as effective as any in the world.

Naval.

NEW YORK, March 7.—The *Navy Register* says, since the close of the war, two hundred and fifty-three vessels have been disposed of by sale, and thirteen lost. Number of vessels retained in service, three hundred and eighteen, of which seventy-three are laid up in ordinary; sixty-eight are building at the different Navy Yards; fourteen are being fitted for sea service; thirty-five are under repair, and thirty-nine are employed variously, at naval stations. The several squadrons comprise ninety-four vessels, one thousand and sixty-one guns, and an aggregate tonnage, old measurement, 103,622 tons.

CITY AND SUBURBAN.

The Criminal Court.

Judge Stowe yesterday disposed of the following cases:

Louis Meyers, tavern keeper, of Duquesne Borough, was arraigned on a charge of selling liquor to minors. Three witnesses testified to having drank at Meyers' bar, the youngest of whom was fifteen and the oldest nineteen. Two of these, however, had been in and "treated," by a man who previously had a difficulty with Meyers, while the third was large enough to have passed for "one of age," almost anywhere. The jury found a verdict of guilty. Sentence deferred.

John Smith, alias Miller, was put on trial for the larceny of an overcoat, the property of Henry Luther. The jury found a verdict of guilty, and the prisoner was remanded for sentence.

Wm. Green and Christian Hineman were arraigned on a charge of stealing a lot of sheep from Mr. Kennedy, of Butler county. The sheep were driven into this county, and sold to two different parties, but the owner traced them up, and found that they had been sold by the defendants, who alleged that they had bought them of "a man." The rule of law, that stolen property found in the possession of an individual, points to him as the thief, unless he can account for its possession, was applied in this case, and the defendants were convicted and remanded for sentence.

Joseph Moon, an aged and respected citizen of McCandless township, was arraigned on a charge of assault and battery preferred by Mr. Geiton, his neighbor. The parties had a dispute about a line fence, and while Geiton was plowing in his field, close to the fence, Moon came along and ordered him to stop, contending that the fence was over on his (Moon's) ground. Geiton undertook to pursue his work, when Moon "punched" the horses with a stick, and also "punched" Geiton, compelling him to quit work. Moon also produced a pistol, and threatened to cripple Geiton if he did not stop plowing. The only testimony for the defense was that of a man who witnessed the difficulty at a considerable distance, and stated that he did not see any blows struck. The counsel for defendant stated that the pistol alluded to was an old thing without any lock on it! The whole case was rather a ludicrous one, and should never have been brought into Court. Jury out.

The Masked Ball.

The masquerade ball given by the members of the Vigilant Fire Company, last night, was was quite largely attended. There was an endless variety of costumes, many of them gorgeous, and all decidedly unique. There were two classes present—those who took part in the dance, (all of whom wore masks and fancy dresses,) and those who appeared merely as spectators, in citizens dress. The "grand march" commenced at nine o'clock, and was a very attractive spectacle. At the close of the promenade, cotillions were formed, and the dancing commenced in earnest. At the hour at which we left the hall, (ten o'clock,) ticket-holders were still coming in, and there was a probability that the hall would be filled up. The music was excellent, and the figures were called by Col. Scott in his usual satisfactory style.

Amusements.

THEATRE.—Mr. Couldock and daughter are drawing full houses at the Pittsburgh Theatre. To-night they appear in the popular play of the "Chimney Corner," to be followed with the drama of "Ben. Bolt."

OPERA HOUSE.—The popular Helen Western was greeted by another large audience at the Opera House last night. The play for this evening is "Flowers of the Forest," with the afterpiece of "Marriage at any Price."

The Oratorio.—The grand Oratorio of "Judas Maccabæus" will be repeated this evening at Masonic Hall, by the members of the Pittsburgh Choral Union. The lovers of classical music will not fail to witness this performance, and show their appreciation of the efforts of the Union in the cultivation and development of the highest order of musical talent. The Oratorio will be rendered in the most effective manner, and those who have never witnessed a performance of this character should not fail to embrace the present opportunity.

Runaway Horse—Woman Injured.—A runaway horse dashed along Smithfield street yesterday evening at a fearful pace. At the corner of Sixth street he ran against a woman, who was crossing Smithfield street with a child in her arms. She was knocked down, trampled upon, and sustained severe injuries. The horse's foot struck her upon the breast, and it was supposed that several of her ribs were broken. The child escaped without injury. The woman was subsequently conveyed to Passavant's Hospital.

Deserve to be Encouraged.—The children of the Central Presbyterian church Sabbath School, Allegheny, held a fair at the church, commencing this afternoon, for the benefit of the News Boys' Home. The little ones should be encouraged by the charitably disposed, and the curious should go if only to see the immense collection of novelties of all kinds collected from the liberal citizens of both cities, and manufactured by the citizens for the occasion.

Matinee at the Theatre.—A matinee will be given at the Theatre, on Saturday afternoon, at two o'clock, for the accomodation of families, and others who cannot conveniently attend in the evening. The admission has been fixed at thirty-five cents—children twenty-five cents.

Life Insurance.—We call the attention of our readers to the advertisement of the New Jersey Mutual Life Insurance Company, which will be found in another part of this day's paper.

FROM YESTERDAY EVENING'S GAZETTE

The Oil Refineries and the Pennsylvania Railroad.

At a meeting of the Petroleum Refiners' Association, held yesterday afternoon, a committee consisting of Messrs. Frew, Israel, O'Connor, and Musgrave, was appointed to memorialize the Pennsylvania Railroad Company on the subject of freight on oil, and to suggest to them that the reduction proposed by the Company, of seven cents per one hundred pounds, is not satisfactory to the Association. The committee was also instructed to correspond with Mr. John W. Garrett, President of the Baltimore and Ohio Railroad, in reference to the rate of freight charged on oil from Pittsburgh to Baltimore, and to represent that unless the freight on oil on the Pennsylvania Central Railroad be further reduced, the Pittsburgh refiners will be compelled to seek some other outlet for their product.

Trichina.

The discussion of the subject of Trichina in the human body, as originating from the use of pork, has disgusted thousands of people with the flesh of the hog, and the consequence is that the sales of pork in the markets of the country have fallen off very materially. In our own markets the demand for this kind of meat, and especially in the form of sausages, has fallen off very considerably. People become squeamish when they think of swallowing myriads of living worms, which, defying death under the cooking process, continue to live and flourish in the human body until they become numerous enough to "eat one up alive." Well, this is enough to turn any body against pork; and especially those with whom that filthy animal, the hog, has never been in much favor. The thought that the use of pork engenders scrofula, or at least tends to feed and develop that disease, prevents many from using it, and numerous other charges are made against the hog. But is it true that Trichina results from pork eating? This is a question for the scientific physician to determine, and we are glad to see the matter discussed by the profession. J. A. Read, M. D., of Baltimore, has published, a communication in which he states that the eating of pork has nothing whatever to do with the disease known as Trichina. He says: "I boldly assert that the Trichina never did and never will destroy human life; that they have, in all probability, existed in the human flesh always, certainly for the last half century; and I think it a fair deduction, taking it (for the sake of the argument) as granted that we may receive them through the instrumentality of the hog, that they are not more dangerous to life on that account. But the idea that we receive them thus is simply ridiculous. We are not cannibals; we do not eat raw meat of any description; and the application of a cooking heat is certain death to all living animals, besides the salting and smoking of pork into bacon is sure destruction to them. They do not inhabit the muscle of the hog more than that of any other animal or of man himself. I defy any one to prove by the record of the last thirty-five years that a solitary death has been caused beyond doubt by the presence of the Trichina. I assert that the charges made against these innocent worms is without the shadow of a foundation in fact, and would advise the community if they desire to eat pork to do so, provided they do not eat it raw or tainted."

Meeting of the Manchester Council.

A regular session of the Manchester Council was held on Tuesday evening, March 6th, 1866.

Members present: Messrs. Harper, Kirk, Motheral, Patterson, and Burgess Samuel McCune.

The Minutes of the regular session of February 6th, was read and adopted as read.

Mr. John E. Parke presented a bill amounting to $144.25, for services of viewers on certain streets of the Borough, which was on motion received and ordered to be paid.

Mr. Harper and Kirk, moved that the bill of the Pittsburgh *Commercial* for printing, amounting to $1.90 be paid, and a warrant ordered for the same.

The Special Election in Allegheny—Qualification of Voters.

A correspondent directs the attention of the tax payers of Allegheny to the provisions of the city charter, defining the qualification of voters, in view of the special election to be held on Tuesday next. The following is the communication:

"The tax payers and voters in the city of Allegheny will see, by the following extract from the city charter, who are entitled to vote at the coming special election to be held on the 13th of March: That the freemen of said city of Allegheny, citizens of this Commonwealth, who have resided within the bounds of said city at least six months immediately preceding the election, and within *one year have paid a city tax* assessed in said city, are the only qualified legal voters; and as more than one thousand persons in the city, otherwise qualified to vote, have not paid a city tax assessed in said city for 1865, the Judges and inspectors of the special election, to be held in relation to the repeal of the wooden building ordinance, are cautioned against receiving fraudulent votes on that day, as the said election can be easily contested by comparing the tally lists with the books now in the hands of the different ward collectors."

The Eight Hour System.

A meeting of workingmen was held on Tuesday evening, at Eldorado Hall, Fifth street, for the purpose of considering the proposed change in the law making eight hours a legal day's work. Charles M'Auley presided, and announced the object of the meeting. Addresses were made by Messrs. N. Vaun, L. F. Jehr, and several other speakers, who took the ground that eight hours per day was as long as any one ought to labor. The understanding of the meeting seemed to be that if the eight hour system were adopted, the wages of the employees would not necessarily be reduced thereby. After some discussion, copies of a petition to the Legislature were distributed, setting forth that ten hours' labor per day was detrimental to the social, mental and moral interests, and praying for the passage of a law making eight hours a legal days' work. A committee of two in each ward, borough and township in the county was appointed to obtain signatures to the petition.

The Criminal Court.

This Court, Judge Stowe presiding, was engaged in the trial of a number of petty cases, not of sufficient importance to have printed.

John E. Goff was tried and convicted of the larceny of a quantity of lumber, the property of Wm. Gibb, of North Sewickley. A motion was made for a new trial.

Thomas Berberick was arraigned on a charge of fornication and bastardy, preferred by Elizabeth Dauer. The prosecutrix, in her information before Justice Seriba, of Reserve township, fixed the date of the illicit intercourse in the latter part of July, 1865, and swore to the same date on the trial. It was in evidence, however, that the child was born six months after that time, and the physician swore that it was fully developed. Judge Stowe charged the jury that it was against nature that the child could have been begotten in July, and born in six months afterwards, and the jury found a verdict of guilty of fornication, and acquitted of the bastardy.

Arrested on Suspicion.—Some days since we noticed the fact, that a German, boarding at Frey's tavern, in the Allegheny Diamond, had been robbed of over three hundred dollars in money, while in bed. An individual by the name of Charles Reynolds, who, it appears, occupied the same room with the loser, was arrested yesterday by Chief Elkin. The defendant was discharged upon a hearing before the Mayor, the evidence adduced not being sufficient to hold him.

The Williams Bank Robbery.—A Toronto paper states that D. H. Hazen, Esq., attorney for Messrs. Williams & Co., of this city, whose bank was robbed of a large amount of money and bonds, some months since, has succeeded, after great difficulty, in getting possession of nearly all the bonds, private papers, etc., which had been stolen. Mr. Hazen had to purchase a portion of them, paying $800 in greenbacks for one batch of bonds worth $3,000.

Committed for Trial.—Adam Walter, whose arrest on suspicion of having stolen three sugar cured hams, we have already noticed, had a hearing before Mayor Morrison, of Allegheny, yesterday evening, and was to-day finally committed to jail for trial. The prisoner confessed to having stolen the hams from a butcher named Jacob Eckert, who resides near Woods run, McClure township. The property stolen was identified by Mr. Eckert.

Who Wants a Gun?—A soldier, who lost one of his legs in the service of his country, but did not part with his patent breech-loading rifle, proposes to dispose of it by raffle on Friday evening, at the Eldorado Hotel. He only consents to part with his trusty rifle, that he may replenish his exhausted exchequer, and purchase a first class wooden leg.

Leg Broken.—A son of Mr. George Caughey, residing in Spring alley, Fifth ward, was run over by a carriage yesterday afternoon, and had his left leg broken.

Aggravated Assault and Battery.—Wm. Harrison was committed to jail to-day by Alderman Butler, charged on oath of Wm. Snively with aggravated assault and battery.

Surety of the Peace.—J. V. Kerr was committed to jail to-day, charged on oath of his wife Catharine Kerr, with surety of the peace.

THE CANDIDATE.

In common with many inhabitants of this city and county, and of other counties in different sections of the Commonwealth, we labored to secure the nomination of the Hon. J. K. MOORHEAD as the Republican candidate for Governor. The reasons for our preference have been fully and repeatedly stated. All the efforts made in that behalf were unsuccessful; and we bow to the decision of the Convention. Concert of action in a political organization can only be obtained by a proper deference to the will of the majority. We recognize the duty this rule imposes, and shall give to Gen. GEARY just the same candid and efficient support we should have challenged from him and his friends had we been so fortunate as to gain the nomination of our first choice.

And here we may as well remark, we have felt neither personal nor political antipathy to Gen. GEARY. Our preference for Mr. MOORHEAD grew out of his residence here, his identification with the interests of this portion of the Commonwealth; his conspicuous abilities; his eminent civil services, and the reasonable claim of the West to furnish the nominee. For Gen. GEARY we feel a high regard. At the outbreak of the war, he did not hesitate what course to adopt, but promptly offered himself to the Government for service in the field, nor did he remit his endeavors until the rebellion was beaten down.

The objection has been raised against him that he is a recent convert from the Democratic party, and is, therefore, liable to suspicion of unsoundness or infidelity. We do not intend now to go into the question of his party antecedents; for the sufficient reason that we hold him to be a true patriot and an honest man. Not that we are unsensitive to political treachery. But as base betrayals as we have had the misfortune to experience have been the work of old-line whigs. Let us specify Tyler, Fillmore and Cowan. Opposed to these flagrant cases, we recall the trueness and constancy of Cameron, Wilmot, Grow, Moorhead and Forney. The inference is that every man must be judged by himself. We accept GEN. GEARY as a true, brave man, and are ready for our share of the work necessary to elect him.

THE DEMOCRATIC PLATFORM.

Several points in this document are deserving of special consideration.

1. The Democratic party has become an abolition party. It agrees to stand by the Constitutional Amendment prohibiting slavery. Herein is discovered the reason why the Democratic journals and orators no longer designate Republicans as abolitionists, by way of reproach. That epithet is dropped, and now opprobium is expressed the word radical. Some encouragement is deducible herefrom. The Democrats having got so far as to be abolitionists, may some day get sense enough to be radicals.

2. The democratic party has progressed so far as to demand of men elected to Congress, and other high places of trust, that they "bear true faith to the Constitution and the laws." Five years ago they thought BUCHANAN, DAVIS, FLOYD and their associate conspirators, were the best sort of democrats. Later, they had a warm admiration for LEE, JACKSON, BEAUREGARD, BRECKINRIDGE and that whole set. We are afraid that upon being pressed, so as to get the truth out of them, it would have to be admitted that they have improved very little since. The last we heard of the ablest man among them, in this Commonwealth, Mr. WM. B. REED, he was toasting JEFFERSON DAVIS as the most exalted patriot in the Union. We have a suspicion they would all do so if they thought it politic.

3. That they go in for exempting the property of black people from taxation, and putting the difference on white folks; that is to say, they proclaim taxation without representation is "tyranny," and then go on to maintain that "the white race alone is entitled to the control of the government." Of course democrats would not be guilty of "tyranny," even towards black men! The blacks may think they have some experience to the contrary, through long years of democratic advocacy and practice of slavery, but such fancy must necessarily be disposed of as mental hallucination. We advise the negroes, nevertheless, to watch and see if the democrats let them off from tax-paying.

4. That the brave Soldiers and Sailors who put down the Democratic rebellion, are entitled to "lasting gratitude." It is an improvement to find the Democrats in such a frame of mind as to render thanks to "Lincoln's hirelings" for whipping them. As no exceptions are made, the thanks must be tendered to black soldiers and sailors. Only think of it! a Democratic Convention expressing thanks to "niggers," for "heroic services in defence of the Constitution and the Union!" But then, it is easy to see they mean the blacks shall have nothing but thanks, for they stoutly declare "the white race alone" shall monopolize places of honor and trust.

5. That each State has "the exclusive right to regulate the qualifications of its our citizens." That is bad grammar, but means that while black soldiers and sailors, who fought to defend the Union must accept Democratic thanks, and then stand back, out of the way, white rebels shall walk up to the ballot boxes and vote each other into office, and the government they tried to destroy, shall not stop them.

—The Party and Platform are exactly suited to each other.

FENIANISM.

The cogent reasoning of Archbishop McCloskey against the Fenian movement, presented on Sunday in his remarks at St. Patrick's Cathedral, New York, should commend itself heartily not only to Irishmen, but to all others who have the true interests of Ireland at heart. He said:

"If our people persist, as unfortunately they have persisted thus far, in a movement which all sensible men and all true friends of Ireland consider one of folly, which must result in nothing but destruction and mischief, it will not only incite England to oppress Ireland still more, and to rivet still more securely the chains upon her people, but it will incite perhaps the anger and disgust of the American people themselves against us. And I say in all the sincerity of my heart that I look to this movement with a feeling of deep apprehension, for the reason of the spirit that has been evinced by those whose counsel the people have followed in this movement, that it will raise up against Irishmen, first as Irishmen; and then as Catholics, in this land, a spirit of persecution equal to that under which they have so long groaned in their own land. I appeal to all men, and beg of them for their own sakes and for the sake of their religion and their God, to withdraw themselves from a movement that has already gone too far. The reason alleged for not listening to advice from bishops and clergy in this matter is that they say this is a political movement, and that therefore the bishops and priests of the Catholic Church have nothing to do with it, and must stand aside from it. That is true. Bishops and priests have nothing to do with it. They say that this movement has nothing to do with religion."

The Archbishop talks like a man of sense, and a devoted minister of the gospel, that he is.

PRESIDENT JOHNSON has not appointed a single avowed Copperhead to office in Pennsylvania.

RECONSTRUCTION.

The Joint Committee on Reconstruction, our readers are already apprised, have reported in favor of the re-admission of Tennessee "upon the express condition that the people thereof will maintain and preserve in good faith their existing Constitution and laws excluding those who have been engaged in rebellion against the United States from the exercise of the elective franchise for the respective periods of time therein provided for, and shall exclude the same persons for the like respective periods of time from elegibility to office, and the State of Tennessee shall never assume or pay any debt or obligation contracted or incurred in aid of the rebellion, nor shall said State ever in any manner claim from the United States, or make any allowance or compensation for slaves emancipated or liberated in any way whatever, which conditions shall be ratified by the Legislature of Tennessee, or the people thereof, as the Legislature may direct, before this act shall take effect."

It seems to us that very few loyal men will be found to complain of these conditions as hard and excessive. It is given out, however, that if the proposition shall pass the two Houses it will encounter the President's veto on two grounds, 1. Because he is in favor of unconditional restoration, not as an act of clemency to the rebels, but as their right. 2. Because it conflicts with his assumption that Congress has nothing to do in the reorganization of the Union, each House having only for itself the meagre right to judge of the validity of the credentials of persons claiming membership. What better authority there is for this assumption than conjecture, does not appear. Perhaps "the wish is father to the thought." Be this as it may, such is the current impression at Washington.

THE VETO.

The N. Y. *Tribune* has a correspondent who says:

"Gen. Howard returned from two weeks' absence at the North but a few days before the message was received by the Senate, and was among the most depressed of all the disappointed. For months past he had been on terms of the closest friendship, as he supposed, with the President, and had received a cordial concession to every request, with but one or two exceptions. Upon his return from his Southern tour in November, he had long and most satisfactory conferences at the White House, in which his views concerning the necessary continuance of the Bureau with a considerable enlargement of power, were frankly given, and entirely approved. Still later, when the draft of the bill had been finished, it was submitted for Executive revision and after careful examination was entirely approved. And thus until the moment of the General's departure for the North, he heard nothing, saw nothing, to awaken the slightest doubt of the final result. In answer to a friend who asked if he was *quite* sure that the bill would be approved after its passage, he replied with spirit: 'My dear sir, that bill *has been* approved by the President over and over again. Whatever he may think expedient about suffrage, he is one of the warmest and truest friends of the Bureau, and will approve every extension of its authority which Congress will permit. Only get the bill through the Capitol, and it will not be delayed twenty-four hours at the White House.'

"The General's chagrin when the truth became known was scarcely a remove from despair. For he saw too clearly that consistency with the message would necessitate the early winding up of its affairs, and the almost immediate suspension of its effective jurisdiction."

General HOWARD has been repeatedly and conspicuously referred to in this connection. It is fair to conclude if the statement that the President expressed to him approbation of the Freedmen's Bureau Bill, was incorrect, he would, before this, have publicly said so.

THE "*Family Treasure*," a religious monthly published in this city, gives the following choice bit of secular intelligence to its readers:

"'Restoration' is now the absorbing thought and theme, with politicians, statesmen, and editors. Did the seceding States commit suicide, and can they come to life again only in the inchoate condition of Territories, and then progress by a long pupilage, under tutors and governors appointed by the Central power, and finally attain the rights and privileges of full States only by adopting constitutions and laws, dictated to them? Or was secession unconstitutional, and so, null and void as regards the political existence of the States? Did it affect only individuals—the men who participated in it, making them traitors, but leaving the loyal citizens, many or few, to be still the State with the unalienated right to resume State functions as soon as they were released from the domination of the usurpers? President Johnson takes the latter view; while a majority in Congress seem to incline to the former."

President JOHNSON *did* take this view when he was Military Governor of Tennessee, holding that if there were but five thousand loyal men in that State they should hold the exclusive right to govern it: but he *now* holds that the States are today just where they were before the rebellion, and that every man who was a voter then should be a voter now, whether loyal or disloyal, and none other. As it is important the people should know the real facts in such a case, we venture to correct the unintentional error of the "*Treasure*."

POSTMASTER GENERAL DENNISON denies, in a published letter, a report that the patronage of his Department is to be used against the Republican party. He says:

"I believe that the interests and the glory of the country essentially depend on the vigorous maintenance and success of the Union Republican party, and its continued control of the Government for an indefinite term, and hence never expect to act with any other political organization as long as it exists."

Gen. Butler and the New Orleans Gold.

The statements that have been going the rounds of the Copperhead press that Maj.-Gen Butler had been obliged to deliver over to Smith & Co., of New-Orleans, the sum of $60,000 in gold, seized by him while in command of the Department of the Gulf, together with interest, poundage, Sheriff's fees and costs, are totally untrue. The facts are briefly these: "Gen. Butler seized the sum of $60,000 in gold upon the ground that the same was the property of the United States Mint at New-Orleans. This was denied by Smith & Co., who claimed the same as their own private property and brought suit for the recovery thereof.

Some three weeks since, ex-Judge Pierpont, counsel for the plaintiffs, wrote the General that his clients were satisfied that he (the General) had reasonable grounds for making the seizure, was fully justified in his course, and that if he would satisfy them that the gold had not been sold or speculated with, but had been religiously held intact, and deliver it to them, they would receipt therefor in full, make no demand for interest or cost, and pay his counsel fees. Gen. Butler replied that as he was now a citizen, and had for three years held this money subject to the order of the Government, who had never made a decision in the matter, he should accept their offer. Accompanying their letter, he sent proof of the fact that the money was, and had been since its seizure, in a bank of Boston. This proving satisfactory to the plantiffs, an order was forwarded to the bank to turn over the money to them, and full receipts were exchanged. Not a dollar more than the exact sum seized was either asked or given, while the claimants admitted in writing that the seizure was justified by the information in the hands of the General.

Disloyalty in Texas.

The following extract is taken from an official letter, transmitted to the War Department through the assistant commissioner of freedmen's affairs for the State of Texas:

"I have just returned from a tour through Walker, Trinity, Polk, and Liberty counties, and for your information I have the honor to respectfully report that, in some parts of the above-named counties the negroes are not yet free; that the old system of whipping and abusing them has not yet been abolished; further, that the hunting of freedmen by bloodhounds is carried on to a great extent; that a white man who is disposed to be loyal to the United States Government cannot hire a freedman without the permission of his former master for fear of being killed.

"In some counties committees are formed to prevent the freedmen from going to their homes in other States, and to whip those that attempt to live with their families or try to get their children to educate and support them, education of colored children being almost universally discountenanced.

"The people manifest in a variety of ways that they are still hearty rebels and Union haters. The uniform, though officially proscribed, is still worn and flaunted in the faces of our officers."

THE shoe manufacturing interest still labors under the depression reported for the last few weeks. Sales are made at diminished prices, but the encouragement for manufacturing is small and curtailment of operations is the order of the day. The shoes now in the market having been got out when stock and labor were very high, the depreciation of prices gives an unpleasant cast to the expectations for future business. Buyers are correspondingly cautious, looking to the further depreciation of prices, and the sales therefore equal only the pressing necessities of trade.—*Boston Post.*

OUR HARRISBURG LETTER.

Correspondence of the Pittsburgh Gazette.

HARRISBURG, March 6, 1866.

EDITORS GAZETTE:—There was a slight whisper of the name of Clymer, here this morning, but it soon died out, and the air has resounded all day since, with the name of Geary, Ketchum and Moorhead.

The Democratic gathering was a lame affair, from all accounts, and entirely devoid of enthusiasm. Gen. Cass's friends at first felt very confident; but the balloting soon dissipated their hopes. Clymer had arranged it all to suit himself, long ago, and the ballotings were mere formalities. The attempt to bring Gen. Meade in as a candidate for the nomination was a perfect failure.

Contrasted with the tame aspect of the Democratic gathering, the look of affairs to-day is decidedly enlivening. Early this morning General Moorhead's delegation came in from the West, numbering about three hundred, with a brass band, marched from the depot to the Lochiel House, creating quite a sensation. At noon a large delegation of General Geary's friends came up from Philadelphia, with a band, followed, late in the day, with a third large delegation, from the same city, in favor of Ketchum, with band, and colors flying. Altogether, the streets of the city have presented a gay and lively appearance, all day the vast crowds in attendance, although differing as to candidates, being enthusiastic in their devotion to Republican principles.

As to the result of the ballotings to-morrow the telegraph will give you the figures before this reaches you, so that I need not speculate as to the ballots. The slates all differ, and all are mere speculation.

The grave question is as to the platform, but the general feeling is very strong in favor of sustaining the position of Congress on the reconstruction question. There will be no denunciation of the President, and every effort will be made, as far as the language of the platform is concerned, to prevent a breach with the administration, many sincerely regarding an avoidance of such a breach as among the possibilities. But on the grand issue as to the proper tribunal for the settlement of the reconstruction question the decision will be emphatically on the side of Congress. I have found one or two Republicans who count themselves as Johnson men; but, like angel's visits, they are few and far between. R.

Remarkable Case of Trance—A Lady Rises from Her Coffin.

A lady, residing within sixteen miles of Raleigh, says the *Progress*, who has been in delicate health since she lost her husband in 1858, died last Friday, (as was supposed), and her friends in the neighborhood proceeded to take the steps usual on such occasions. The coffin was ordered, the corpse shrouded and laid out, and all needful preparations consummated for the funeral ceremonies last Sabbath. Strange as it may appear, it is said that, while the watchers in an adjoining room were indulging in hilarity and hot coffee, a noise was heard in the apartment where the remains of the beloved departed reposed.

Supposing a cat or rat was playing therein, a gentleman went to stop the revelry. On opening the door he was horrified to find the lady standing on the floor, the very incarnation of perplexity. The brave fellow hastily retreated. His demonstrations excited the rest of the party, and the whole crew shrieking and trembling, deserted the house for a season. An elderly negress, more courageous than the others, went into the dwelling, ascertained the state of affairs, and, with Christian heroism, administered to the necessities of the dead-alive one.

Search was then made for the retreaters, who, being found at a neighbor's, returned to the domicil they had shamefully abandoned.

Dr. Bell, formerly of Greenville, South Carolina, who has attended the lady during the past six months, assures us that these are unvarnished facts, and presents no new truths to the medical profession. It is simply a case of trance or suspended animation. The only remarkable circumstance, perhaps, is the duration of the spell, though after her presumed decease the absence of that perfect icyness, which is peculiar to the dead was remarked by the physician as well as her friends.

The lady is now able to sit up, and being in the last stages of consumption, is as well as she ever will be. She remembers very little of the hours of her trance, but experienced an almost painful thirst in the first moments of returning consciousness.

GENERAL NEWS.

OUTLAWS IN BOYLE COUNTY.—A letter to Mr. James Runyan, of this city, received yesterday, states that the county of Boyle is infested by a band of robbers and marauders, who are terrifying the unprotected citizens without mercy. On Wednesday night last, the house of an old man, named Harmon, near Northfolk, on the Lebanon Branch road, was forcibly entered and robbed of $104. The same dastardly band, on the same night, went to another house and took an old man out and hung him by the neck until life was almost extinct, because he would not tell where his money was. These outrages are too frequent. It is a disgrace to our State that they go on unchecked. We hope that the people of Boyle will take the law into their own hands, if other protection is not granted them, and sweep the outlaws from their midst.—*Louisville Journal.*

A PAIR of elopers, at Chicago, the other day were so closely followed by an enraged parent that they couldn't get the marriage rite performed, and tried to make good their escape with a horse and sleigh. But the weather was bitter cold, and before driving far their limbs began to freeze and they soon became insensible. In this condition they were discovered, taken in and cared for by a hospitable family, who hadn't the slightest idea that they were not man and wife, and so put them to bed together. They recovered from their stupor just as the indefatigable parent introduced himself, finding their heads side by side on a pillow, and a first class "scene" immediately ensued. After all this romance, of course there must be a happy termination, and a minister made it so.

Mr. Boutwell reported to the House, to day, voluminous evidence, taken by the Reconstruction Committee in relation to affairs in Georgia, Alabama, Mississippi, and Arkansas. It includes important testimony from General Thomas, Howard, Grierson and Saxton. The evidence in regard to Arkansas is very favorable.

The belief is general among the best informed members of the bar of the Supreme Court that the trial of civilians by military commissions will be pronounced unconstitutional in the test case now being argued.

GEN. FREMONT, Robt. Dale Owen and others are urging Congress to indorse a new Mexican loan to the amount of five hundred millions of dollars.

THE President has sent to the Senate the correspondence with the Southern Provisional Governors, called for by a recent resolution.

IT has been announced by leading members of the Reconstruction Committee that the Supreme Court will soon deliver an opinion, declaring that the test oath is unconstitutional.

THE New York and Erie Railroad recently discharged 1,500 employees on account of the falling off in Western bound freight.

MR. CONKLING, of New York, intends to offer a substitute for the Tennessee joint resolution when it comes up in the House.

IT is estimated that over six hundred conversions have taken place during the progress of the religious revival at Indianapolis.

INSURANCE.

LIFE INSURANCE! LIFE INSURANCE!!—The NEW JERSEY MUTUAL LIFE INSURANCE CO. OF NEWARK, N. J., desires to call the attention of citizens of Pittsburgh to this subject, through their General Agent for the West, JAMES HUBBARD, at Monongahela House, Pittsburgh.

P. S.—One NEW feature in Life Assurance is that ALL OUR POLICIES are NON-FORFEITING; for instance, if the party becomes unable to meet his annual payments he will NOT forfeit his policy, but the amount of insurance will be diminished by a sum equivalent to the premium so unpaid, thereby removing the ONLY valid objection that can be made against Life Insurance. Books, pamphlets, &c., can be had of

WHEELER & WILSON
MACHINE

Have greatly increased its value, still the price remains the same, and but little in advance of other and comparatively inferior machines. Many have purchased other machines simply because they could be obtained at a little less price, when they would accomplish but half the amount of work, and have invariably regretted afterwards that they did not obtain THE BEST.

Since the modern improvements have been added to this machine, it has become unnecessary to prepare the work at all by basting, so that the entire sewing of an ordinary garment is performed without basting, which is a very great additional saving of labor.

Below we give a table made up from actual experiments showing the relative time occupied in making garments by this machine and also by hand.

GENERAL NEWS.

THE following are the circumstances of a murder recently committed in Litchfield, Montgomery county, Ill. A bound girl of the age of twelve or fourteen years was one morning a week or so ago scolded pretty severely for some misdemeanor, and finally was whipped with a small rod. Everything passed off in the morning well enough without any further difficulty. The girl's special duty was to take care of three little children; and going out to the barn as was her usual custom to a swing that had been prepared for the children's use, she took the youngest child (a boy) and hung him in the swing until dead, then ran into the house and told the mother of the child that a man came into the barn, took the child and hung it. But as there was no trace of a man's track in or about the barn, the girl was arrested, after which she confessed and said that she took this method of redress for the punishment she had received in the morning. She now awaits trial in jail.

DEATH OF A VENERABLE MERCHANT.—Our obituary columns have contained the announcement of the death of Mr. James Martin, the oldest commission merchant in the city. He died on Saturday, at his residence, in his 78th year. Mr. Martin had long been connected with the firm of Thomas and Martin, the well known Front street commission merchants. He was a director of the United States Bank and was once elected President, but declined to serve. In the palmy days of the Bank of Pennsylvania he was a director of that institution. In every relation of life Mr. Martin was a sterling gentleman, and an enterprising citizen and a merchant whose record was of the highest and most honorable character. In his death Philadelphia has lost a citizen of whose reputation she might well be proud.—*Philadelphia Bulletin.*

A HORRIBLE DEATH.—Joseph Rolston, of Philipsburg, Centre county, met with a horrible death by freezing, a short time since. He had been drinking freely, and had, while drunk, endeavored to wade the Moshannon creek, but ere he had proceeded two-thirds across, his limbs refused to perform their office. He grasped a bough of an over-hanging tree, unable to advance further, and soon the fast congealing water cemented close about him a tomb of ice, which stretched from shore to shore. Two days after this he was found standing there rigid as an icicle, his knees imbedded in a sheet of the frozen element seven inches thick, his body inclined a little forward, hands clutching the boughs, eyes astare, and despair pictured on his features.

SUICIDE AT CHICAGO.—Says a Chicago dispatch: Coroner Wagner held an inquest on the body of a man named William Thompson, aged sixty-five years, who lived in a room at the rear of 153 Huron street. About three weeks ago he married a woman thirty years his junior, and ever since he has been jealous of her. The other night, after both had gone to bed, the neighbors heard an altercation going on between them, he, as usual, making awful threats. The wife was heard to get out of bed, rush to a window and scream for help. He, in the meantime, seized a loaded musket, and putting the muzzle to his chest, discharged the contents, the ball passing through him and lodging in the outer wall of the house. Verdict—suicide.

A FALSE hearted female, in Cairo, recently deserted her husband for another man. Said husband thought he would try a little strategy for the purpose of testing the attachment of the idol of his heart to the destroyer of his happiness. He sent her word that he had poisoned himself, and that he wished to see her before he took his departure to that "bourne from whence no traveler returns;" but the game wouldn't work; she didn't rave, nor tear her hair, nor go crazy. The poor fellow is now swearing vengeance against the invader of his domestic bliss.

AT a meeting to support the President, held in Memphis on the 27th, Col. Crockett, a prominent reconstructed rebel, said in a speech "that if the South would stand as a unit by "Andy Johnson with the Conservative party "in the North, before five years would elapse "the South would again control the Government, and under the Constitution enjoy the "rights they had fought in vain to secure outside. He had fought against the Government, "but he stood by Andy Johnson."

GEN. ROUSSEAU, from whom the Union party expected much and got nothing, is said to have met his Democratic opponent for Congress, Robert Mallory, the other day, when Rousseau said: "We ought to be friends now, for I have voted in Congress just as you would have voted had you been elected."

"Very true," replied Mallory, drily, "You have voted as I promised the people I would vote, if elected, but you have not voted as you promised them you would."

AN intelligent planter writes to the Galveston *News* that he is well pleased with his prospects under the free labor system. His freedmen have remained, and perform their usual work for a portion of the crop. He has divided his hands into sections, and employs a premium system to promote competition. His people are respectful and obedient, and the change in their condition has not altered their conduct.

DEATH OF DR. JAYNE.—We are sure that our readers generally will learn with sincere regret the death of Dr. David Jayne, a citizen who has done so much to adorn and improve Philadelphia. His death occurred yesterday at his late residence, south Third street, above Spruce street, his age being about sixty years. He was a native of New Jersey, and came to Philadelphia in 1836.—*North American.*

A GLASS factory has recently commenced operations at the city of LaSalle—the first of the kind in the West. It at present employs about forty hands, but is soon expected to become much more extensive. The peculiar quality of sand from which glass is made is quite abundant in that vicinity. The glass works are located near the Illinois Central Depot.

JOHN MINOR BOTTS is out in a letter declaring that there is a wide spread conspiracy among the late rebel leaders to involve the country in a foreign war, and then, when opportunity should offer, to take sides with the enemy.

A PRIVATE despatch from Washington to Cincinnati states that Mr. Stanton will resign the Secretaryship of War this week, and that Gen. Steadman, of Ohio, has been offered the position and has accepted it.

IT is intimated that as Archbishop Purcell is the senior Archbishop in the United States he will be chosen a Cardinal at the next meeting of the Consistory in Rome.

A. C. STEVENS, Union, was elected Mayor of Portland, Maine, on the 5th, by an increased majority of 311 from last year.

Action on the President's Veto.

A meeting of the Union members of the Pennsylvania Legislature has been held, to consider the President's veto and kindred subjects; and although the proceedings were private there is a good reason to believe that a resolution similar in form to the following was agreed upon:—

"*Resolved*, That the action of the majority of both Houses of Congress, in their patriotic efforts to reconstruct the Union on the basis of justice, humanity and equality before the law, of all classes of citizens, entitle them to the admiration and respect of all loyal people, and we hereby pledge them our firm and cordial support.

THE PRESIDENT'S NEW FRIENDS.—The other day, President Johnson, by special appointment, gave an audience to the members of the American Iron and Steel Association, including about seventy gentlemen permanently engaged in these important branches of manufacture. They were punctual at the time specified, and had to wait only about half an hour before their interview took place. But while they were waiting in the ante-room, they saw Mr. Thomas B. Florence, the notorious editor of the *Constitutional Union*, a more treasonable and rebellious journal, if possible, than the *Chicago Times*, go several times in and out of the President's private office, as if very intimate there. The truth is, that Florence is a regular companion of Mr. Johnson, and is just as cordially liked by him as if he was a loyal citizen, instead of an out and out friend of treason and rebellion. A man is known by the company he keeps.

PHILADELPHIA, March 5, 1866.

To the Editor of the Daily News:—SIR—Please publish the fact that there is no truth in the report circulated from Washington that I have consented, at the request of the President, to allow my name to be presented to the Democratic convention as a candidate for Governor.

Respectfully, yours, GEO. G. MEADE,
Major General U. S. A.

SPECIAL NOTICES.

☞**AYER'S AGUE CURE, for the** speedy cure of *Intermittent Fever, or Fever and Ague Remittent Fever Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

Fever and Ague is not the only consequence of the miasmatic poison. A great variety of disorders arises from its irritation, in malarious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest and moreover is perfectly safe. No harm can arise from its use, and the patient when cured is left as healthy as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell because one bottle cures a whole neighborhood.

☞**RETROUVEY'S TURKISH BANDOLENIAN HAIR TONIC.** THE DRESSING AND RESTORER OF THE AGE TURKISH BANDOLENIAN. RETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FOR SALE—FOR RENT.

FOR SALE.—A Farm of 44 acres and thirty-six perches, situate in Elizabeth township, Allegheny county, Penna. The improvements are a hewed log dwelling and frame kitchen, bank barn and other out buildings; a good orchard, apple and peach trees, of the best variety. The farm is underlaid with coal and limestone of the best quality; a flag stone quarry of a No. 1 quality; very easy of access to the Monongahela river at Taggs Ferry. This small farm I am authorized to sell at very low figures.

Also, a farm of about 200 acres, situated in West Wheatfield Township, Indiana county, Penna. The improvements are a good, comfortable, two-story Frame House, with 6 rooms, a large frame barn, carriage house, good corn crib, wash house, bake oven and a two-story stone spring house; about 150 acres cleared and in timothy and clover; a good orchard of apple, peach, pear and quince trees. The fencing is generally good. The land is of a good quality, abundance of limestone, and but a short distance from coal. This property will be sold very cheap.

Also, a Farm of about 240 acres adjoining the above. The improvements are a large two story Log House and a large frame barn; 175 acres cleared and under a good state of cultivation; a small apple orchard; a large two-story milk-house. These two farms united would make a first-rate Stock Farm, or will be sold separately.

Also, the best farm in Fairfield township, Westmoreland county, Pa., containing 240 acres; about 6 miles south of the Pa. Railroad. The improvements are two large hewed log houses; one of the largest and best frame barns in the township; two apple orchards. The whole farm is under a high state of cultivation. The fencing is all No. 1. The land is of the very best limestone: about 200 acres cleared, the balance in good timber. Possession on the first day of April, 1866. This property will be sold at a great bargain. The owner wishes to engage in other business.

Also, several other Farms ranging from $30 to $200 per acre.

Also, a Farm of 150 acres, situate in McCandless township, Allegheny county, Pa., about 8 miles from the city. The improvements are a Log House, a good barn, a young orchard of apple, peach and pear. I will sell this valuable property very cheap and on easy terms.

FINANCE AND TRADE.

WEDNESDAY, March 7, 1866.

There was but little done in our local stock market to-day, and except for Bank shares and Government bonds, there seems to be no demand. The auction sales were well attended on Tuesday afternoon and evening, and the transactions in bank stocks were unusually large. Citizens sold at 60¾; Exchange, 66¾; Bank of Pittsburgh, 66½ to 66¾; Bank of Commerce, 108, and there was also a sale of National Refining & Storing Oil stock at 9.

Gold is reported steady, and a fraction higher to-day—New York quotation at noon 133¾. Railway stocks firm—sales of Pittsburgh, Fort Wayne & Chicago at 90¾, and Cleveland & Pittsburgh at 76¾.

—Great pains (says an exchange) are taken by parties at Washington to ventilate the opinions of the Controller of the currency upon the loan bill and the financial policy of the Government. The opinion of this or that subordinate of Mr. McCulloch may be of importance to the party holding it, but it has no effect here. It is well understood to be part of the lobby game to defeat a return to specie payments, and as a gross discourtesy to the Secretary, whose opinion is exactly the reverse of that of his subordinate.

—The following comparative statement shows the average condition of the leading items of the Philadelphia Banks for the past and previous week:

	Last Week.	This week.	
Capital	$14,642,150	$14,642,150

Circulation	7,732,070	8,161,049	Inc. 428,979

The most remarkable feature of the above statement of averages is the large increase of circulation, which now exceed eight millions of dollars. The legal-tender notes increased $164,730, and specie $16,054. The loans decreased $260,840, and the deposits $217,158. This statement points to rather more stringency in money matters. The loans are decreasing, as are also the deposits, and legal tenders show an increase. The prospect of the attempted funding of the currency is received with general apprehension. It is argued that if the movement should prove successful as a means of recovering the specie basis, there must at least be serious derangements arising from the universal reduction of all prices, while the banks will be imperilled through the loses of their customers. Thus, the future is regarded as threatening, and worthy the most careful watching by the banks.—*Ledger*.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, March 7, 1866.

There is no improvement to note in the tone of the general markets, either as regards demand or prices, and with a demand for the leading articles of trade restricted almost entirely to supplying the immediate wants of the retail trade, we have but very few round lot operations to record.

GRAIN—Wheat is rather more active but unchanged; sale of 1 car Milwaukie Club, at $1,65; and 1 car prime Indiana Red at $2,10. Corn is dull and nominal at 60 to 65, for Shelled and Ear on track, and the usual advance for small lots from store. Barley nominal at 75 for Spring, and 90 for fall. Rye is quiet and unchanged. Oats may be quoted at 40@42, on track.

FLOUR—Is steady with a fair local demand, but unchanged. Sales from store in small lots at $8¼@8½ for Spring Wheat; $9¼@9½ for half Spring and half Winter; and $10¼@10½ for all Winter Wheat brands. Sale of 100 bbls Spring at $8¼. Rye Flour dull at $5½@5¾.

PROVISIONS—Bacon is dull but unchanged at 14½ for Shoulders; 17@17½ for Sides, and 23@23½ for Sugar Cured Hams. Lard is dull with small sales of prime kettle at 18½. Small sales of Mess Pork to the trade at $28½@29. No movement in Bulk Meats.

SEEDS—Clover seed is dull and neglected, with a supply largely in excess of the demand. Small sales of Timothy Seed at $3¾@4. Flax Seed is in demand at $2,75@2,80.

BUTTER—Is in fair demand and steady but unchanged; sales of good to prime Roll reported at 35@38.

EGGS—In rather better demand but unchanged—sales of 12 bbls at 28.

CHEESE—Is quiet and unchanged—sales of prime Goshen at 24@25, and common Ohio at 20@21.

SORGHUM—Continues to come in pretty freely, embracing several lots from Chicago. We can report sales of 40 bbls, to the trade, at 68@70; and small sales at 73@75.

MILL FEED—Sale of 1 car heavy Shipstuffs at 95 ⅌ cwt; and small sales of Middlings from store at $1,50.

HAY—Very dull, with a supply considerably in excess of the demand. Baled is selling at from $14 to $16 per ton.

OIL—No. 1 Lard Oil is steady, with a fair demand at $1,83@1,85.

ONIONS—Quiet but steady at $2,50 to $3 per bbl, as to quality.

DRIED FRUIT—Apples selling at 13@15c, and Peaches at 15@18c for quarters, and 20@22c for halves.

POTATOES—Steady, with regular sales from store at $1,15@1,20 per bush, and $3,50@3,60 per barrel—Sale of 50 bbls, to the trade, at $3,35.

BEANS—Less active but unchanged—small sales at $1,75@2 per bush.

HOMINY—Is selling at 3c to the trade, and 3¼@3½, in a small way

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE
WEDNESDAY, March 7, 1866.

CRUDE—The transactions in Crude were again light to-day, and while the market is dull and weak, there is no essential change in prices. Sales of 500 bbls at 16, bbls returned; 200 at 16; and 250 and 350—on Tuesday evening—at 17. Holders, generally are beginning to realize the fact that the market is in a rather precarious condition, and hence the majority of them are more anxious to sell, while at the same time, they do not seem disposed to make any further concessions. Once our refiners become satisfied that the lowest point has been touched, they will buy pretty freely, but until they become pretty well satisfied on this point, it is not likely that the transactions will be very large, unless an active shipping demand should spring up in the meantime.

REFINED—The market for bonded oil continues dull and weak, the advices from the East still being regarded as unfavorable, and even for future delivery, the offers are not as good as they were a week or ten days since. In the present unsettled and unsatisfactory condition of the trade, it is impossible to give accurate figures, as there is not enough doing to establish quotations. Free Oil is dull and entirely nominal at 57@58; it is stated that there was a sale of 200 bbls on Tuesday at 56, but we are not prepared to vouch for the truth of the report.

NAPTHA AND RESIDUUM—The demand for Residuum continues very much restricted, and in the absence of sales, $4 to $4¼ per bbl may be regarded as the nominal quotations. Nothing doing in Naptha.

ARRIVALS—The arrivals of crude by the Allegheny river since our last report, were as follows:

Fisher & Bro	400	Jas. Wilkins	703
Jas. Benney	434	W. P. Logan	85
Duncan & Dunlap	58	Consignee unkn'n	8

This table explains why Commercial paper sells so high, and why preference is given by owners of money to call loans at legal interest, or even less. The table shows that those who 60 days ago, put their money into staple goods, or bought them on credit, have made serious losses. In many cases the loss is so heavy as to impair the capital of merchants so much as to make their notes dangerous to touch at any rate. Upon the market value of cotton, flour, corn, wheat, and other products, the solvency of many traders depends, and the fluctuations are naturally watched with great interest. That still lower prices are to be reached, there is no reasonable doubt. There is no want of cereals or cotton, and a few months will produce new crops of both, and force prices still further towards natural balances. The break in the price of gold is steadily making cereals and provisions available as a remittance, and will leave a larger stock for home consumption to the damage of prices. The future has little of encouragement to debtors, and the less people owe and the fewer engagements they make to pay money in future, the better.—*N. Y. Tribune*.

Alarm in Detroit about Trichina.

[From the Detroit Advertiser.]

We understand that so great has been the panic in regard to trichina in pork that the business of our principal dealers has suffered immensely. With the view of reassuring the public, some of the leading packers have procured a thorough examination of a large quantity of pork by a committee consisting of Louis E. Levy, an optician from the house of L. Black & Co., B. Clark, the board of trade inspector of pork, Dr. J. A. Albertson and Dr. F. X. Spranger, who unite in certifying that all the pork they examined appeared in a sound and healty condition, and that in their opinion the disease known as trichina has not yet made its appearance in this region.

Chicago Live Stock Market.

CHICAGO, March 6.—The cattle market to-day is active and buoyant, with a brisk shipping demand, with sales at from $7@7½ for first class steers; and $6@6½ for fair to good, and at from $4,65@5,75 for common to medium grades of cows and stock cattle.

Live hogs are extremely dull and weak, with a decline of 25@50c per 100 lbs. Sales range from $8,75@9,20 for common to good bacon hogs.

Sheep rule dull. We note small sales to-day at from $5,40@5,50 for choice lots.

Cincinnati Seed Market.

CINCINNATI, March 6.—The receipts of clover are still liberal, and, being in excess of the demand, a further decline was established, and there is only a moderate inquiry now at $6,25. Small sales are being made from store and orders filled at $6,35@6,40. Timothy is in but limited request. It can be bought at $3,50. Flax meets with a good demand at $2,60.

MARKETS BY TELEGRAPH.

Finance and Trade in New York.

STOCKS.

NEW YORK, March 7.—The stock market was firmer at the last boards, and there was a good demand, especially on clique stocks. The upward movement on Erie and Michigan Southern imparts more strength to the whole market. The following were the closing prices at 4:30 p. m.: New York Central, 90¾; Erie, 86¾; Hudson River, 103; Reading 98¾; Michigan Southern, 72¾; Cleveland and Pittsburgh, 77¾; Rock Island, 107; North Western, 26¾; do preferred, 54½; Fort Wayne, 91; Canton, 43½; United States 5-20s, 104¼; United States 10-40s, 90; Missouri 6s, 91; Toledo, 107; Ohio and Mississippi Certificates, 24¾; Illinois Central, 115; Michigan Central, 101¼.

MONEY.

There is rather more demand for money to-day, owing to the increased speculation at the Stock Exchange, but it was freely offered at 7 per cent., and there were some exceptions at 6 per cent. Prime discounts are current at 7@8 per cent.

GOLD.

Gold closed quietly at 133@133¼.

BUSINESS.

Business in provisions is generally dull. The price of pork continues to decline, and there is very little doing for export or consumption. There is some speculative feeling, but the bulls find it impossible to sustain the market.

BOOTS AND SHOES.

The boot and shoe trade is dull and the tendency towards lower prices. The bulk of the business is with the South. The stocks are large, and the spring trade is not up to the expectations of manufacturers. The New York exports, exclusive of specie, for the week ending March 6, are 6,803,831; same period last year, 2,919,574. Imports, 6,107,756; sold same period last year, 2,529,237, principally in dry goods. The weakness and downward tendency of gold continues to have a very depressing effect on the market.

DRY GOODS.

Gold and Dry Goods rallied a little this morning, but soon relapsed to their weakness of yesterday, and the buyers in the market still contend for lower prices. Foreign goods were offered at lower prices to-day, and Domestics, such as Standard Sheetings, have touched a lower figure than they have for the past two months. No one can be found who will say the bottom figure has been reached.

Brown Sheetings—Atlantic A, 26½; Augusta, 36 inch, 25; Augusta, 30 inch, 21; Great Falls, M, 23; Great Falls, L, 22. Bleached Shirtings—Ballou & Son, 36 inch, 31. New York Market.

The market closed quiet. Whiskey dull, at $2,28@2,30 for prime. Wheat firmer; White, Common and Inferior dull and drooping, at $1,60 for Old Chicago Spring; $1,60@1,65 for Old Milwaukee Club, and $1,70 for Choice New No 1 Amber Milwaukee. Pork heavy and lower, at $25,50@26,90 for New Mess, and closing at $25,62½ cash; $25,75 for Old do, and $20,25@20,50 for Prime; also 5,500 bbls New Mess for March, April and May sellers' option, at $26,25@27,25. RIVER, WEATHER, ETC.

The river continues to recede steadily at this point, with a fraction less than seven feet in the channel by the pier marks last evening. The weather yesterday was blustering and cold, with an occasional spitting of snow. Telegrams from Oil City reported the Allegheny falling with three feet six inches of water at that point.

There was not a single arrival yesterday, aside from the regular packets, and the Robt. Moore, for Cincinnati, with an excellent trip, was the only transient departure. Business at the landing continues rather dull, and boats experience considerable difficulty in picking up a full cargo.

The following dispatches were received at the Board of Trade to-day:

CINCINNATI, March 7.—River has fallen two feet during the last 24 hours. Nora, Captain Devinney, arrived yesterday. Business very dull. Weather clear and pleasant.

LOUISVILLE, March 7.—River falling with 8 feet in the canal by mark. Rocket passed up last evening, with two barges of sand in tow.

ST. LOUIS, March 7.—10 a. m.—River rising, with 15 feet hence to Cairo. Weather clear and pleasant.

The Allegheny river packets appear to be doing a fair business, having pretty good trips both up and down, including a goodly number of passengers. The towing business, however, is said to be very dull, and with an unusually large number of boats in the trade, the rates for towing have been reduced considerably.

Passengers and shippers should bear in mind, that the Bayard, Capt. Geo. D. Moore, is the regular packet for Parkersburg to-day, leaving promptly at 11 a. m.

The Emma No. 3 did not get off for St. Louis last evening as expected, being unable to complete her cargo, but she will leave to-day about noon without fail. Capt. James H. Maratta in command and Mr. John Eakin has charge of the office.

The Kate Robinson, Capt. Robt. Robinson, with John Wherry in the office, is filling up rapidly for Cincinnati and Louisville, and will soon be ready to take her departure.

Capt. Wash. Kerr telegraphs that the Revenue will be here to-day or to-night, and will leave for Portsmouth on Friday.

The Camelia, Capt. Lytle, is announced for Nashville, and all intermediate points forthwith, and passengers and shippers should bear this fact in mind.

The Brownsville packets are doing a very fair business, both the freight, traffic and passenger trade being very good, and these boats in point of accommodations for passengers speed and comfort, are unsurpassed by any on the western waters. The officers are gentlemen in every sense of the word, in addition to being experienced and prudent steamboatmen, and we have no hesitation in saying that both passengers and shippers having business with them will find what we have said to be no exaggeration.

Roback's Stomach Bitters

After years of experience and trial, have proven to be the best remedy extant for all complaints where a tonic and stimulant are required. They never fail to strengthen the weak, impart vigor to the strong and in all respects restore shattered and broken-down constitutions. No remedy has been received with as much favor as ROBACK'S STOMACH BITTERS.

GREENBACKS
ARE GOOD,

It is admitted by our most learned physicians that DR. ROBACK'S BITTERS combine the properties of a gentle laxative, an efficient anti-bilious agent, and the best stomachic known to the world.

ROBACK'S

BITTERS should be used by convalescents to strengthen the prostration which always follows acute diseases.

In the billious districts of the West and South there has, for a long time, been much needed, an article of stomach Bitters, which, if taken in proper quantities and at the proper time, are a sure preventive of

Billious Fever, Fever and Ague,
Liver Complaint, Dyspepsia,
Indigestion, Jaundice, Kidney Complaints, and all Diseases of a similar nature, and

a preventive for billious derangement, regulating the system, and giving tone to the digestive organs, than any other known remedy.

Now that the war is over, there will be thousands seeking homes in the South. No person who values his life should go there without having constantly at hand the BITTERS, as a safeguard against epidemic and maladies engendered by miasma and poisonous water.

Travelers to and all residents of the rank bottoms of the west and south, and the valleys of the Mississippi and its tributaries, should provide themselves with the

Attend to Your Colds.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP

PITTSBURGH, January 11, 1860.
DR. KEYSER:—My wife has been afflicted with a bad cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself for a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.
WM. WILSON,
Alderman, Fifth Ward

PITTSBURGH, April 24, 1857.
READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup, and before she had used half a bottle she was relieved. The second bottle cured her entirely of her cough.
JOHN DAHIN,
Robinson street, Allegheny.

PITTSBURGH, December 31, 1858.
A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP.—I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known that this valuable remedy will do for others what it has done in my case.
JOHN C. LITTLE,
Witness: B. M. KERR. Peebles township.

PATTON TOWNSHIP, April 14, 1848.
A WONDERFUL CURE.—Some time ago an old neighbor of mine was very ill with a bad cough which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.
JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold, and are enquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles the last week, and are now entirely out. Mr. A. Alter and Mr. P. Maher, both of Blairsville, Pa., told us they would not be without it in their families. In fact, all who use it once want it again.
Yours, respectfully,
J. S. WATTERSON & SONS.
January 30, 1860.

PITTSBURGH, November 13, 1858.
DR. KEYSER:—Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may in any manner be afflicted with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for removing all that disagreeable sensation attending a severe cold.

I have been, more or less in my life, affected with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely.

In recommending this medicine, I must unhesitatingly say that it is the best remedy I ever found, purporting to cure the above, nor should any family be without this remedy for diseases so prevalent.
Yours, most respectfully,
EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1865.
I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best medicine for the same that I have ever taken.
J. W. PRICE.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Dear Sir: Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it is. It knocked the noise out of my cough, and the worst one I was ever afflicted with. I have not used more than one-half of the bottle, and I can and do wish that all who are afflicted would give it as fair a trial as I have done, and they will be proud to say, "It is no quack medicine." I would not suffer another such an attack for any consideration, or at any cost. I am confident I can breathe more freely than I ever did. I shall always acknowledge a debt of gratitude for inventing so excellent a remedy. You are at liberty to use my name in this regard as you think proper.
E. F. PRATT,
Messenger Common Council, Pittsburgh, Pa.
N. B.—I am no stranger to my fellow-citizens, and all who entertain doubts can consult me personally.
E. F. P.

ANOTHER NEW CERTIFICATE.—DR. KEYSER'S PECTORAL SYRUP.—I had been troubled with a cough and cold for several weeks—so bad was it that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pectoral Syrup, which cured me entirely.
J. W. SIMONTON,
(Signed) No. 246 Liberty street, Pittsburgh, Pa.
January 9th, 1860.

"STOP THAT COUGHING."—"How can I do it?" Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed." This is a specimen of the colloquy one hears every day in cold-catching periods of the year. And we can, from actual experiment, cheerfully concur in the adviser's admonition as above, for we have tried the "Pectoral," in a most stubborn case, with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mulish, unsubduable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for one whole week, in hopes of tiring it out, but it was no go. In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and distressibility by the operation. In this stage of the siege, we coughed our way to Keyser's, No. 140 Wood street, procured a fifty cent bottle of the "Pectoral," took it according to directions, and in forty-eight hours we were master of the field, the enemy having unconditionally surrendered, after a brief, but unequal conflict with so formidable an adversary as Keyser's famous Cough Pectoral.—*Brownsville Clipper, Dec. 14, 1860.*
